Santo Domingo, República Dominicana

ABOUT ME

Bilingual Full-Stack Developer with over 5 years of full-time hands-on experience, specialized in building scalable APIs and data-driven solutions. I have strong expertise in both frontend and backend development, along with more than 4 years of working with SQL and NoSQL databases. Experienced in collaborating with multidisciplinary teams, applying agile methodologies and an iterative approach for fast and efficient deliveries. My background includes working in dynamic environments, from startups to large enterprises, which has allowed me to be adaptable and innovative.
